

Give yourself an unfair advantage with Kwik...

We go to great lengths to reduce your installation time with Kwik-Fit[®] EMT, Kwik-Couple[®], & Kwik-Fit[®] Compression EMT

CELEBRATING **50** YEARS

Contact Allied Electrical for your FREE Allied Kwik Calculator CD at aeginfo@alliedtube.com (supplies are limited)

Kwik-Fit[®] EMT Installing EMT has never been easier with Kwik-Fit. Kwik-Fit eliminates the need for separate fittings by providing a BUILT-IN set-screw fitting for quick and easy installation. Kwik-Fit line features E-Z Pull[®] interior coating to save you wire pulling time. UL listed and meets ANSI standards. **Now available in Trade Sizes 1 1/4 through 4.**

Kwik-Couple[®] Conduit Installing runs of galvanized rigid conduit (GRC) and intermediate metallic conduit (IMC) is hassle-free with Kwik-Couple. Kwik-Couple eliminates the need for separate couplings by providing an INTEGRAL threaded coupling for quick and easy installation. UL listed and meet ANSI standards. Available in Trade Sizes 2 1/2 through 4.

Kwik-Fit[®] Compression EMT Kwik-Fit Compression EMT eliminates the need for separate fittings by providing a BUILT-IN compression fitting for quick and easy installation. Kwik-Fit line features E-Z Pull interior coating to save you time in wire pulling. UL listed and meet ANSI standards. Available in Trade Sizes 2 1/2 through 4.
