

ALUMINUM NoLube® SIMpull THHN® CABLE TAKES YOU TO NEW HEIGHTS.

Same great **NoLube®** performance you love,
now with AlumaFlex® conductors and even more savings.

Our new aluminum SIMpull THHN cable is lighter weight and has a lower cost than copper—with all the benefits you love about NoLube SIMpull THHN cable. The result is an easier-to-pull cable, without lube or messy cleanup. Guaranteed. With extremely durable insulation and colors that make installation safer and faster. Southwire is used to raising the bar. After all, we invented the 8000 series aluminum alloy that is now the industry standard.

To see how SIMpull THHN cable with AlumaFlex conductors will take your next installation to new heights, visit southwire.com/cabletalk to view podcasts on this product or call **1-888-NoLube-0 (888-665-8230)**.
